

At any place at any time - quick, flexible and reliable

Aligned to the individual requirements of the convenience trade, Lekkerland guarantees its customers a reliable provision with commodities thanks to all-embracing logistics according to firmly defined international and national standards.

Top operative performances and 100 per cent service are the claim which Lekkerland makes of its logistics. Thanks to a network of 36 branches in ten European countries, Lekkerland is in a position to supply each of its customers. 1.028 lorries, light transporters and deep-freeze vehicles are used every day for this purpose.

Modern warehouse control systems and a highly capable vehicle fleet ensure unproblematic and reliable distribution of the ranges.

Lekkerland provides its customers with a service level of up to 97.5 per cent and a delivery availability of up to 99 per cent. In other words: our customers receive their delivery of goods not only complete at any time, but also in time and undamaged - all over Europe.
